

Proposed KONP demands

May also be used as pledges for the general election

- Stop privatisation of the NHS and bring back government responsibility and accountability.
- Repeal the Health and Social Care Act 2012 and promote the Pollock-Roderick NHS Reinstatement Bill 2015;
- End expensive and compulsory competition, reject the Transatlantic Trade & Investment Partnership (TTIP)* and halt all new foundation trust plans.
- Commit to adequate funding from taxation to provide a comprehensive, publicly provided and top quality NHS for all;
- Halt harmful cost-driven NHS cuts and closures. Any service reconfigurations must be driven by clinical need, not cost, and follow public consultation;
- Halt all new private finance initiatives (PFIs) and abolish racketeering PFI debts.

**Alternative wording: replace 'reject the Transatlantic Trade & Investment Partnership (TTIP)' with 'keep the NHS out of the Transatlantic Trade & Investment Partnership (TTIP)'*
